Discover a better way of day to day.

Meet the Mount’n Mover wheelchair mounting system.

Mount’n Mover™
by BlueSky Designs

mountnmover.com
“Moves Freely

The Mount’n Mover tilts, turns and adjusts to your heart’s desire, whether traveling from room to room or venturing out and about. It conveniently helps keep sight lines open, too.

“Transforms Quickly

No matter what your particular needs, swiftly change out personal devices from your Mount’n Mover—from a reading tray and speech device to a laptop and iPad.

“Functions Beautifully

Intuitive and purposeful, the Mount’n Mover combines a modern, sleek 21st century design with engineering inventiveness. It’s an artful extension of your daily activity.

“It puts my keyboard and mouse right where I need them. I don’t have to reach. It’s quite a piece of engineering... a great design.” — Mark

“I like this mount because it is so versatile... and I can move it out of the way to get to my desk or a sink.” — Jim
Installs Easily

Simple instructions make the Mount’n Mover work for your therapists and caregivers—from single and dual arm to floor stands. Independence is yours in minutes.

“With the Mount’n Mover, I have turned my wheelchair into a rolling tripod. I can focus my efforts on taking photos, and not be so concerned with holding the camera steady.”

— Loren
Choose your Mount’n Mover

Tilt’n Turner
- 1 rotational joint
- Tilt adjustable
- 12 possible lock positions
- Very compact
- Position in front of armrest

MO-TQ-H  $599

Tip: Add a second device to a Dual or Single Mount’n Mover — Create a double decker! (see p. 8)

Easy access to phones and devices of all sizes.

Single Arm
- 2 rotational joints
- 144 possible lock positions
- Simple to move
- More compact than the Dual

M1-TQ-H  $799

Use it for more than one purpose!
Dual Arm

- 3 rotational joints
- 1,728 possible lock positions
- Most versatile
- Easiest to move
- Requires little reach

M2-TQ-H $999

Adjustable memory lock settings allow customized and consistent positioning

Each joint offers up to 12 possible lock positions

Quick Release Plate allows for quick and easy attachment and removal for a wide variety of devices

Paddle unlocks the wrist joint so you can easily rotate a tray or device

Hoop unlocks both the elbow and shoulder joints to make moving between operating positions easy

Tilt angle adjustment: easy lateral movement unlocks the tilt
