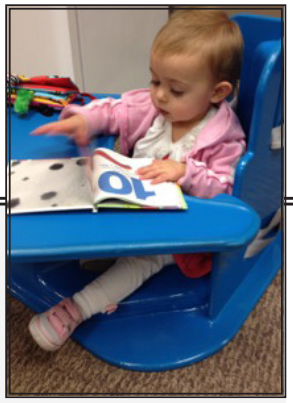
ASSISTIVE TECHNOLOGY for KANSANS (ATK)

Mission:
To help families and local service providers identify developmentally appropriate AT needed by children with disabilities.



The KEE Reuse program accepts donated durable medical equipment.

- The equipment is sanitized, refurbished, and given to Kansans, including children 0-10 years old, who need it.
- Equipment donations are also accepted.

Children's High Quality, Lightly Used Assistive Technology Wish List includes:

- Gait trainers
- Adapted strollers
- Feeder seats
- Toddler chairs, wedges, and positioning devices
- Prone and supine standers
