<p>New purchase: Special Tomato Recliner Support System. For individuals with poor postural control. Designed to drape over and be secured to a piece of ordinary reclining household furniture. Weighs 10# and can be taken to someone else’s house, too. When more support is needed, can be used with Special Tomato Soft Touch Liners. One size—preschool through adult.</p> <p>For more information, visit the adaptive Mall website online.</p>	
<p>New purchase: ErgoErgo Stool For individuals who need active seating. The Ergo stool accommodates and encourages active movement. Purchased all 3 sizes— KidsErgo, ErgoErgo and ErgoExtra</p> <p>For more information, visit the adaptive Mall website online.</p>	
<p>New purchase: Kore Wobble chairs Allows movement when children are required to sit. For children with low tone, requires constant activity from muscles. Supports proper posture for back and head. Purchased four sizes—toddler through teen.</p> <p>For more information, visit the adaptive Mall website online.</p>	

Other Mobility and Positioning Aids
