

Find My Device - Android

1. Open **Settings**
2. Tap **Google Services**
 - Make sure you are signed in to your Google account
3. Tap on **Find Hub**
 - Toggle on Allow device to be located
 - Download (if not pre-installed)

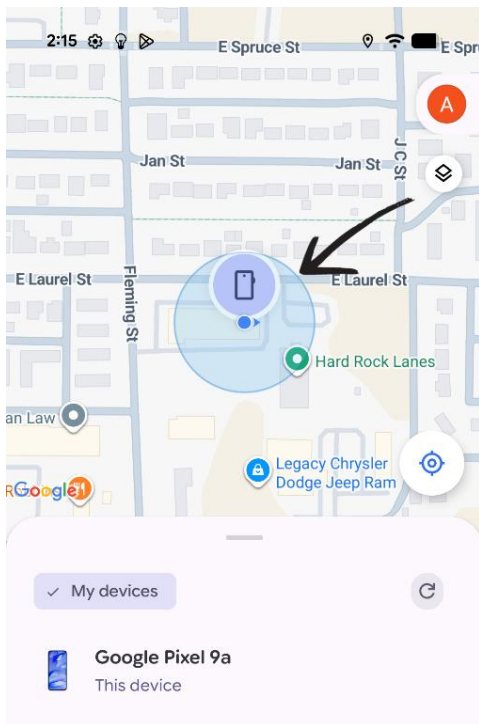

4. Open Google's **Find Hub**

- Accept the Find Hub service pop-up

5. Verify your device shows up at the right location

If your phone is ever lost, you can:

-  **See its location** on a map
-  **Play a sound** to find it nearby
-  **Lock the device** remotely
-  **Erase the device** remotely
