

Closing Apps – Android

Closing Active Apps helps the battery last longer & the phone run faster

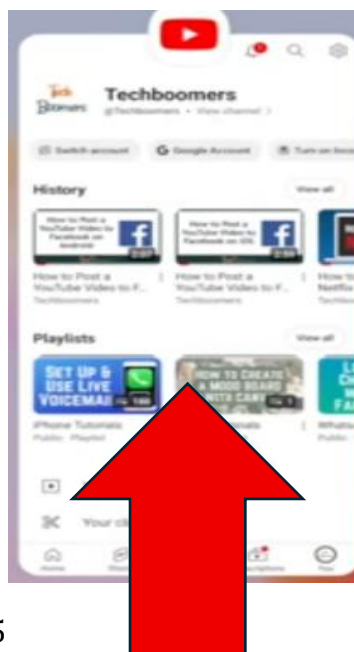

1. Tap the 3 lines on the front home screen

Called the “Recent Button” This will open all the recently opened apps.
The apps all stack up

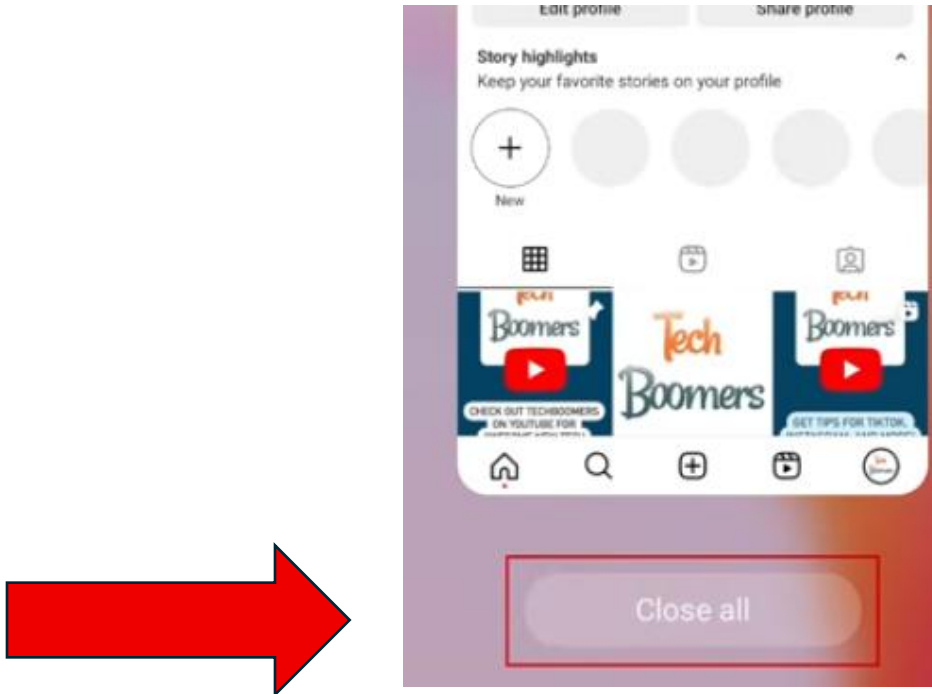

2. Swipe Up to close one app at a time

Continue to Swipe Up to close each app
Swipe left or right to pass an app and go to the next

3. Close all apps by pushing CLOSE ALL button that is listed toward the bottom of the apps.

4. Return to the home page by tapping the Center Home Button or Open other apps to be used
