

Turning on Live Captions – iPhone

Live Captions will automatically transcribe spoken audio from a video or phone microphone into real-time text on the iPhone's screen.

Live Captions is available on the iPhone. It must be turned on.

Enable through Settings:

1. Open **Settings**
2. Tap **Accessibility**
3. Tap **Live Captions**
4. Toggle **Live Captions** to ON

The Live Captions Button will appear on the phone screen. Tap this Live Captions Button to start Captioning.

The caption window will appear on screen whenever speech is detected

Live Caption can be turned on with the Live Captions button, in the Control Center or with the Action Button.

Device Compatibility

Live Captions on the iPhone requires:

- iPhone 11 or later
- iOS 16 or later
- Currently available in English (US and Canada) only
