

Magnification – iPhone and iPad

Magnification features on an iPhone and iPad help make text, icons, photos, and real-world objects easier to see.

Step 1

Open the Magnifier app.

Step 2

Point the camera at the object.

Examples:

- Medication labels
- Mail
- Menus
- Receipts

Step 3

Move the zoom slider.

Slide right to zoom in.

Slide left to zoom out.

Helpful Tips

- Use Zoom for reading apps and websites.
- Use Larger Text for everyday reading.
- Use Display Zoom to enlarge icons.
- Use Magnifier for real-world objects.
- Combine features for the best viewing experience.

Remember: Accessibility settings can be customized to meet your individual needs.
